

CONFIRMED SPEAKER

Mr Karim EL-JISR

October 3, 2017 - Jakarta, Indonesia

Karim is the Executive Director of SEE NEXUS Institute, a knowledge destination based in The Sustainable City, Dubai. Combining sustainability theory and practice, Karim has been leading efforts to monitor the environmental performance of The Sustainable City, Dubai - where he both lives and works. Using low-tech high-tech design, this community was designed according to social, environmental, and economic criteria. Karim is an advocate of low-carbon living, which requires both technological features as well as behavioral change, and an excellent understanding of the geographic context. Karim is well versed in four languages and a seasoned speaker at international forums.

Professional Highlights

▲ Prior to joining the team behind The Sustainable City, Karim managed several high-profile sustainability projects for UN agencies, the World Bank, and global organizations in the MENA region and central Asia.

Testimonial

“The annual FIDIC conference is an avenue to think outside the box and push the boundaries of sustainability in the built environment – it promotes nexus thinking across the industry and helps find solutions to urban risks including climate change.”
