OC GLOBAL

Professional background

- ▲ Served as Speaker at several UN World Conferences on Disaster Risk Reduction and other high-level diplomatic fora such as the Asian Ministerial Disaster Risk Reduction.
- ▲ “Technical Guideline for formulation of local disaster risk reduction and management plan”, co-developed with National Agency for Disaster Management (BNPB) in Indonesia, 2015

Testimonial

“The international society needs to implement disaster risk reduction efforts to keep infrastructure functional, including during and after disasters.

FIDIC’s Conference will provide specific guidance on how the consulting engineers can take a role to convince decision makers in countries prone to disasters to take necessary actions.”
